

HP STAINLESS PLATINUM

PREMIUM WINDOW FILM DATASHEET

HP Stainless Platinum is a sophisticated, reflective solar control film engineered to deliver superior heat reduction, reliable daytime privacy, and complete protection against interior fading for floors and furniture. It provides a distinct, elegant grey-reflective exterior appearance while ensuring flawless optical clarity from the inside. Its advanced metallized layer guarantees exceptional glare reduction, creating a more comfortable and productive environment for both residential and commercial spaces.

Key Advantages

- Multi Sputter technology
- High heat rejection
- Blocks glare
- Blocks 99% UV rays
- Best comfort
- 10 years warranty
